

Disclaimer for Customer Training: ISO New England (ISO) provides training to enhance participant and stakeholder understanding. Not all issues and requirements are addressed by the training. Consult the effective [Transmission, Markets and Services Tariff](#) and the relevant [Market Manuals](#), [Operating Procedures](#) and [Planning Procedures](#) for detailed information. In case of a discrepancy between training provided by ISO and the Tariff or Procedures, the meaning of the Tariff and Procedures shall govern.

Divisional Accounting

Forward Capacity Tracking System (FCTS) Self-Supply Assignment to Subaccounts

FCTS Self-Supply

- Self-supply (SS) requests are submitted during the qualification process for each Forward Capacity Auction
([Forward Capacity Market: Self-Supply webinar recording](#))
- Lead participant may designate all or part of an FCM resource's qualified capacity for self-supply
- Requests may include transactions with multiple load-serving entities (LSE)

FCTS Changes

- LSEs can select a subaccount to associate with the transaction
 - Only applies to LSEs with divisional accounting enabled
- SS request not binding unless a subaccount is selected and the transaction confirmed during the submission window timeframe
- Changes can be made while the submission window is open
- SS request may be rejected or reverted back to pending to make any changes as needed.

Subaccounts are created in CAMS

FCTS Self-Supply (Request View)

- Existing view in FCTS
- LSEs who have not defined subaccounts in CAMS will not see changes
- Click “Confirm” to complete the transaction
