Waterbury Center, VT 05677

Dear Shawn:

On March 13, 2020, Retirement De-List Bids were submitted for the resources identified in the table below for the effective date of June 1, 2024.

Resource ID	Resource Name
10801	COVENTRY CLEAN ENERGY
12323	COVENTRY CLEAN ENERGY #4

ISO New England Inc. (“ISO-NE”) has reviewed these de-list bids pursuant to the ISO-NE Planning Procedure No. 10 – *Planning Procedure to Support the Forward Capacity Market (“PP10”)* and has determined there is no local reliability need for these resources that would result in the rejection of the requested de-list bids. As required in PP10, this finding was reviewed with the Reliability Committee at the August 2020 meeting.

Pursuant to the ISO Tariff Section III.13.2.5.2.5.3, these resources will be retired from all New England Markets, and all interconnection service for the resources will terminate effective June 1, 2024. If the resources wish to retire before this date, they must meet the requirements set forth in Section III.13.2.5.2.5 of the ISO Tariff.

If you have any questions, please contact ISO-NE’s Customer Support at (413) 540-4220 or custserv@iso-ne.com.

Sincerely,

Robert Ethier
Vice President, System Planning
